2 LA GINESTA

Set in a peaceful elevated position in the eastern corner of Camiral, this property enjoys spectacular views over the 15th hole of the Stadium Course and the surrounding Catalan landscape. Its privileged location is one of the home's defining features.

Designed by Catalan architect Gerard Oliver, the villa spans two levels and is accessed from the upper floor. The striking white concrete pergola creates a play of light and shade across the façade, giving the property immediate architectural presence.

The main living spaces are located on the lower floor, arranged around a discreet internal courtyard for complete privacy. Here, the open-plan living and kitchen area is bathed in natural light and opens directly onto the terrace. The master suite and an additional multi-purpose room – ideal as a fourth bedroom, office or media space – are also located on this level.

On the entrance floor, two further en-suite bedrooms offer beautiful views, with one enjoying access to a private solarium terrace overlooking the golf course.

A standout feature of the property is the 10-metre infinity pool, seamlessly connected to the main terrace, a secluded spot to enjoy the Mediterranean sun or to entertain in style.
